

PV2H2 BOLJUN CROATIA

A photovoltaic power plant with 100 MW and connected hydrogen production is to be built near Boljun in Croatia.

On behalf of and in cooperation with the project manager enso GmbH, movingpower GmbH is designing the hydrogen generation plant in combination with the photovoltaic power plant.

Location:

Boljun, Croatia

Type:

PV and green hydrogen production

Production modules:

Harvest, Produce

Leistung:

100 MW_{el}
